TechALERT®

The perfect productivity tool for dealerships!

TechALERT® keeps your technicians moving efficiently from one car to the next, while tracking the progress of your RTI A/C service equipment.

Productivity Maximizer

Having a technician "tied" to a machine during its entire service cycle is an inefficient use of shop manpower. RTI provides the solution by offering TechALERT®, an exclusive patent-pending wireless communication tool designed to enhance shop productivity.

It works like this... TechALERT® sends a wireless signal to a remote pager carried by the technician. The signal provides process status on TechALERT®-compatible shop equipment with visual, audible and vibration alerts.

MODEL NO. RTI49580000

TechALERT® Base with Docked Remote

- TechALERT® Base has storage pocket for remote
- Base mounts to RTI service machine
- Base LED indicator confirms successful remote synchronization

Dealer Price:
\$305.00

TechALERT®

Handy and Versatile

TechALERT® delivers status indication through the following differentiated alerts...

Process On-Going – equipment is performing normal operation

Process Interrupted – technician assistance is required ASAP

Remote Out of Range – technician must return within signal range of TechALERT® base

Operation Complete – service completed, equipment may be operated elsewhere

Up to four (4) separate RTI TechALERT® compatible machines can be monitored simultaneously by one TechALERT® remote plus several technicians can independently synchronize their individual remote to the same RTI machine to keep high demand equipment in constant use!

TechALERT® Remote – Rear View

- Integrated clip provides secure pocket placement

2008 PTEN Innovation Award

RTI's TechALERT® earned the 2008 Professional Tool and Equipment News Innovation Award in the tools and accessories category. This prestigious award is bestowed upon newly developed tools and equipment by an independent panel of technicians not affiliated with the publication. According to PTEN, "Of special note is RTI's TechALERT®. TechALERT® was the highest rated tool nominated, receiving a near perfect score from the judges for its innovative and unique approach to improve shop efficiency."
